

### **INTERVIEW SUMMARY**

Applicants thank Examiner Salomon for the courtesy of a telephone interview on January 6, 2009, requested by the Applicants' representative, A. Roger Lang, to discuss the rejection of the current claims under 35 U.S.C. § 103. During the interview, Applicants' representative asserted that the cited references do not render obvious the claims as currently amended. The Examiner indicated the currently amended claims appear to overcome the cited references. However, a further search of the art may be needed, so no agreement was reached regarding patentability.
